Water

Valpre

Sparkling / Still 350ml

27

Sparkling / Still 750ml

55

Starting out as gentle rainfall, every drop of Valpré spring water spends up to 15 years filtering naturally through the ground. On its long journey through the earth, the spring water moves through different soil and rock layers that imbue it with the minerals that are responsible for its unique composition.

San Pellegrino Sparkling 250ml

55

San Pellegrino is a fine quality natural mineral water that flows from natural springs in Val Brembana in the San Pellegrino Terme area, at the foothills of the Italian Alps near Bergamo (Lombardy). This 'terroir' makes San Pellegrino sparkling and naturally enriched with mineral salts.

Evian Still 330ml

77

Evian water gets its unique cool, crisp taste from its 15 year journey through the French Alps. It starts as snow and rain and travels slowly through layers of glacial rocks where it becomes naturally filtered and enhanced with electrolytes and minerals.

Voss Still / Sparkling 375ml

155

VOSS is bottled at an artesian source in the pristine wilderness of Southern Norway, naturally filtered and protected from pollutants. The water is generated from the source deep beneath the ground. The unprocessed nature of the water gives it its fresh, clean taste.
